THE GAZETTE.

TUESDAY EVENING, JULY 5, 1870.

NARROW ESCAPE. —Our fellow citizen, ludge J. T. Harris, had a narrow escape from death by lightning on Tuesday afternoon last. He was engaged, with his two little sons, in making hay in one of the lots purchased of the Kylo's estate, when the rain and thunder storm of Tuesday afternoon came up. Disposed to seek a shelter from the storm and rain, he proposed to his boys to get under a large willow tree near the creek running through his lot. this they objected, stating that they had in their philosophy that it was dangerous in a thunder storm to seek the shelter of a tree, especially one near the water. He then suggested that they could shelter themselves under the overhanging bank of the creek. To this they also urged the objection that they philosophy taught with equal clearness, that it was dangerous in a storm to be in close proximity with a body of water. The earnestness of his sons ressoning induced the Judge to listen and pay attention to them, and he and they made a shelter of some ricks of hay about 20 or 30 yards from the willow-tree and the creek. They had hardly taken their position behind the hay ricks, when the tree was struck and shivered by the lightning! the Judge and his sons being near enough, notwithstanding their precautions to be considerably shocked and stunned by the stroke. - Rockingham Reg.

WEET QUININE

Is a Recent Improvement. QUININE, with which all are familiar. Dose for dose it is

WARRANTED Fully equal in every way to Bitter Quinine,

And, like it, is the one Great, Positive and Unfailing CURE for al DISEASES OF MALARIOUS ORIGIN.

Fover and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Bilious Fever,

Dumb Ague. and the long train of disorders following those when neglected.

SWEET QUININE

s made sololy from Peruvian Park (so is Bitter Quinine,) therefore it is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE

acts as an antidote to, as well a a cure for, ma-larial or missmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always

with children. SWEET QUININE is in two forms—in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public.

STEARNS, FARR & CO.,

THE WEED. FAMILY FAVORITE.

We would call the attention of our friends in Alexandria and vicinity to the fact that we have opened at 922 Pa. ave., bet 9th and 10th streets, Washington, an establishment for the exclusive sale of the above popular and justly celebrated SEWING MACHINES.

The WEED is pronounced by every one The most simple, The most durable,

The most economical, The most rapid,

The most beautifully constructed and lightest

running machine in use. The WEED uses a perfectly straight needle; makes the elastic lock stitch exactly alike on both sides; requires no screw driver, wrench, or tool of any kind in setting the needle; has no springs about shuttle, tension, thread-con-troller or feed; uses upper and under thread the same size, and will sow with equal ease and facility upon everything from the finest lace to the coarsest materials-even upon leather and boards of more than a quarter of an inch in

The WEED was awarded the Highest Prize and Diploma at the Paris Exposition, in 1867, over eighty-two competitors; also the highest Prize and Diploma at the American Institute, New York, October, 1869, over all competition; and, later, at the Maryland Institute Pair, Baltimore, November, 1869, after a contest of over four weeks with some of the most celebrated machines in the country, the Weed was again crowned with the highest honors and awarded

The Weed is sold at the lowest cash price on the most accommodating terms. Persons in search of the best machine should not fail to examine the Weed before purchasing any other. GORSUCH & DEVAUGHAN. ie 30-2w 922 Pa. av., Washington, D. C.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people-a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which rer. ders competition futile, and those who buy any other watch, morely pay from 25 to 50 per cent more for their watches than is necessary.

We are now selling Waltham Watches at less prices in groonbacks than the gold prices before the war. There is no other manufacture of any kind in the United States of which this

These time-pieces combine every improve ment that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keep-

Among the many improvements we would

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universallyadmitted by watchmakers to the best, are used in all grades of Waltham Watches. All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning, necossary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the chearest watch of its quality now offered to the public. To those living in all portions of the U.S. where watchmakers do not abound, watches with the above-mentioned improvements which tend to nsure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company. To prevent imposition, buyers should see that every watch should bear either of the following trade marks:

American Watch Co...... Waltham, Mass. Amn. Watch Co...... Waltham, Mass. American Watch Co.,

Waltham Watch Co..... Waltham, Mass. P. S. Bartlett...... Waltham, Mass. Waltham, Mass. Home Watch Co..... Boston, Mass.

For sale at retail by all respectable dealers. A descriptive circular, giving much useful information, sent to any address on application. No watches retailed by the Company. Ad-

ROBBINS & APPLETON, Gen. Agts., 182 Broadway, NEW YORK.

Ask to see the new FULL-PLATE WATCH, bearing the trade mark "AMERI-CAN WATCH Co., Crescent st., Waltham, Mass." It is by far the best full-plate watch made in the United States, and surpasses anything heretofore made in this country for Railway Engineers, Conductors, &c. ap 19-eo3m
